Subject: RE: Fw: Smokey Mountain Smelter

Teresa,

I did receive last week's email and large attachment but had not received the email below (about a call) until just now. I spoke very briefly with my client yesterday afternoon (about a minute). I learned that she has had a serious medical condition diagnosed and is unable to discuss this matter with me. At this point, I really don't know much else to provide or advise. She is aware of the reason for my call (i.e. that EPA had contacted me) and so hopefully will contact me as soon as she is able. At that point I will certainly contact you and pick up on our discussions.

Best regards, LeAnn

Hello LeAnn,

I have just received an email that indicates that the email I sent below may not have been delivered to you. Would you please look at the two emails below and let me know if you have received the email from today and the email from last week with the attachment? Allegedly, the email from last week was sent to you in our "non-peak" hours or after routine work hours. I removed the referenced attachment in this email in an attempt to determine if the attachment is creating a delivery problem.

Thank you.  
Teresa

Re: Fw: Smokey Mountain Smelter  
(Document link: Teresa Mann)

Hi LeAnn,

I have learned that the scope of the removal action for the Smokey Mountain Smelter Site has changed since we last spoke. Instead of performing a full removal action at this time, EPA would like to first have access to the property to erect a fence around the property to prevent access to the site and to strategically move some items on the property. I would like to set up a conference call tomorrow with you and the On-Scene Coordinator, Matt Huyser, to allow Matt to describe in more detail the action that EPA would initially like to perform at the site. Are you available for a call tomorrow (Thursday ) at 1:00 p.m. est. If this is not a good time for you, I would appreciate your letting me know a time that would be convenient for you.

Thank you.  
Teresa

Fw: Smokey Mountain Smelter

Dear LeAnn,

I appreciate your talking with me today regarding EPA's efforts to obtain access to perform a removal action at the Smokey Mountain Smelter Site. Pursuant to your request, I have attached a report prepared for EPA dated July 13, 2007 assessing the groundwater and soil contamination at the Site (at the bottom of the forwarded email). This is a large file. If you are unable to open it via email, please let me know and I will send it to you in a CD. After you have reviewed the material, I will be happy to set up a conference call with you, your client, and the On-Scene Coordinator to discuss in detail the work that EPA will perform during the removal action.

Again, I appreciate your contacting your client to find out if she has a current telephone number or address where I can reach her brother and her father's wife.

I look forward to working with you to resolve the access issues.

Best Regards,  
Teresa Mann
